Voted by the Town:

Section 1. That the Code of By-laws, consisting of Chapters 1 to 10, each inclusive, is hereby adopted and enacted as the "Code of By-laws, Town of Bellingham, Massachusetts."

Section 2. That all provisions of such Code shall be in full force and effect from and after the 6th day of November 1970.

Section 3. That whenever is such Code an act is prohibited or is made or declared to be unlawful or an offense or a misdemeanor, or whenever in such Code the doing of any act is required or the failure to do any act is declared to be unlawful, and no specific penalty is provided therefor, the violation of any such Code shall be punishable by a fine of not more than fifty dollars, as provided in Section 1 — 5 of such Code.

Section 4. That any and all additions and amendments to such Code when passed in such form as to indicate the intention of the Town to make the same a part thereof, shall be deemed to be incorporated in such Code so that reference to the Code of By-laws of the Town of Bellingham, Massachusetts, shall be understood and intended to include such additions and emendments.

Section 5. That in case of the amendment of any section of such Code for which a penalty is not provided, the general penalty as provided in Section 3 of this By-law and Section 1 – 5 of such Code shall apply to the section as amended; or, in case such amendment contains provisions for which a penalty, other than the aforementioned general penalty, is provided in another section in the same chapter, the penalty so provided in such other section shall be held to relate to the section so amended, unless such penalty is pecifically repealed therein.

Section 6. That three copies of such Code shall be kept on file in the office of the Town Clerk, preserved in looseleaf form or in such other form as the Town may consider most expedient. It shall be the express duty of the Town Clerk, or someone authorized by the Town Clerk to insert in such copies, in their designated places, all amendments or ordinances which indicated the intention of the Town to make the same a part of such Code when the same have been printed or reprinted in page form, and to extract from such copies all provisions which may be from time to time repealed by the Town. Such copies of such Code shall be available for all persons desiring to examine the same.

Section 7. That it shall be unlawful for any person to change or amend, by additions or deletions, any part or portion of such Code, or to insert or delete pages or portions thereof, or to alter or tamper with such Code in any manner whatsoever which will cause the law of the Town of Bellingham to be misrepresented thereby. Any person violating this section shall be punished as provided in Section 3 of this ordinance.

Section 8. That all By-laws or parts of By-laws in conflict herewith are, to the extent of such conflict, hereby repealed.

Section 9. That this By-law shall become effective on the 6th day of November, 1970.

ARTICLE 16. — Voted unanimously: That the Town amend Section 1322 Special Permits of the Bellingham Zoning By-laws by adding the following at the end thereof:

Special Permits shall normally be granted where specific provisions of this bylaw are met, except when conditions peculiar to the particular site or vicinity (and not true generally of land similarly zoned) or peculiar to the particular proposed use (and not true generally of such uses) or peculiar to the specific design (and not inherent in the use) would cause granting of such permit to be to the detriment of the public interest because:

- a) It appears that the intent of the performance standards of Section 3400 or other requirements of this bylaw cannot be or will not be met, or
- b) traffic generated or patterns of access and access would cause congestion, hazard, or substantial change in established neighborhood character, or
- c) the continued operation of or the development of adjacent uses as permitted in the Zoning Bylaw would be adversely affected by the nature of the proposed use, or
- d) nuisance or hazard would be created or
- e) for other reasons, the specific proposal derogates from the intent and purpose of this bylaw.

ARTICLE 19. — Billboards. Voted unanimously: That the Town revise Section 3513 by deleting in its entirety, and substituting the following:

“3513. No non-accessory sign or billboard shall be erected except as allowed under Section 3533.”

ARTICLE 17. — Voted unanimously: That the Town amend the Bellingham Zoning By-laws as follows:

1. Amend Section IV, Definitions, revising the definition of “Home Occupation,” to read as follows:

“Home Occupation: A business or profession engaged in within a dwelling by a resident thereof as a use accessory thereto.”

2. Revise Section 2400, Use Regulations Schedule, by revising the row “Home Occupation” to read as follows:

“Home Occupation	A	R	M	B	I
	*	*	*	*	*

*See Section 3100.

3. Amend Section 3100 to read as follows:

“3100 HOME OCCUPATIONS

3100 Home occupations are permitted only if conforming to the following conditions:

- a) No more than twenty-five percent of the floor area of the residence shall be used for the purpose of the home occupation.
- b) Not more than one person not a member of the household shall be employed on the premises in the home occupation.

c) There shall be no exterior display, no exterior storage of materials, no outside parking of commercial vehicles, and no other exterior indication of the home occupation or other variation from the residential character of the principal building other than an unlighted sign not to exceed one square foot in area.

d) No offensive noise, vibration, smoke, dust, odors, heat or glare shall be produced (see Section 3400).

e) Traffic generated shall not exceed volumes normally expected in a residential neighborhood.

f) The parking generated shall be accommodated off-street, other than in a required front yard, and shall not occupy more than 35% of lot area.

3120. The following home occupations are permitted without necessity of Special Permit:

The professions of medicine, dentistry, law, architecture and engineering; machine, woodworking, metals, art or photo shop; domestic work such as dressmaking, millinery, and clothes washing; teaching and exercise of professional skills in music, dramatics, arts and crafts, and academic pursuits; real estate and insurance offices; inside storage of tradesman's materials and equipment; or beauty parlor or barber shop; and accountant.

3130. Home Occupations other than the above but having similar attributes may be allowed on Special Permit from the Board of Appeals.

3140. Commercial stables or kennels or sale of articles not produced on the premises shall not be allowed as home occupations.

4. Amend Section 3531 to read as follows:

3531. One sign for each family residing on the premises indicating the owner or occupant or pertaining to a permitted accessory use, provided that no sign shall exceed one square foot in area."

ARTICLE 42. — Voted unanimously: That the Town amend its By-laws by adding the following:

"That an Industrial Development Financing Authority is needed in the Town of Bellingham and that (1) unemployment or the threat thereof exists in the Town of Bellingham, or (2) security against future unemployment and lack of business opportunity is required in the Town, and that unemployment or the threat thereof can be alleviated or the security against future unemployment and lack of business opportunity can be provided, by attracting new industry to the Town or substantially expanding industry existing in Town through an industrial development project or projects financed under Chapter 772 of the Acts of 1967. The Town Meeting determines that there is need for such an authority and in making this determination the Town Meeting has taken into consideration the Town's ability to adjust to any expected increase in the demand for municipal facilities and services as a result of the expected increase in employment and business activity from such industrial development.

I further certify that: (1) copies of the Warrant for the above Annual Town Meeting were posted at least fourteen days before said Meeting in accordance with Town By-laws. (date of posting Jan. 26, 1970)
 (2) The required quorum of 100 was present at all times at the above Meeting.
 (3) Notices of Adjournment were posted in each precinct in accordance with Town By-laws.

REPORT OF CIVIL DEFENSE

To The Honorable Board of Selectmen:

I hereby submit the annual report of Civil Defense.

Several years ago, we submitted the Town's application for an Emergency Operating Center (E.O.C.) to the Federal government. Due to the Federal economy drive, funds will not be available in the foreseeable future, so we will continue to man our temporary emergency operating center. In the past year, our Communications Officer, Richard L. King has logged 50 hours sending and receiving messages to and from State and Local Civil Defense.

During the past year, our Communications Officer Richard L. King has visited the Taunton warehouse for government surplus. He has purchased for Civil Defense electronic equipment and medical supplies at approximately 2% of the original cost.

To the Honorable Board of Selectmen, the Heads of all Departments any my entire CD Staff, I wish to express my greatest appreciation for the cooperation and assistance given me this past year.

Respectfully submitted:

To the Honorable Board of Selectmen:

During the latter part of the year, permission was granted to the Bellingham Auxiliary Police use of a room in the tower of the Town Hall to be used for a centralized communications center. Much work has gone into this project in cleaning and preparing this room. We wish to thank Mr. Wilfred Arcand of the Highway Dept. for donating his time and efforts for the help he gave us, also Mr. Lloyd Brown for his cooperation. We are planning to have this center functioning by the first part of the year. This location will enable us to function more efficiently, and be in closer contact with the Bellingham Police Dept. and the Bellingham Fire Dept. Lt. George Cleveland has been elected to perform the Radio Officers Duties of the Auxiliary Police. I'm sure with his experience and will for better communications, he will be an asset to the Town of Bellingham.

INSTRUCTION COURSES

Thirteen members have completed the Standard and the Advanced First Aid courses during the year 1970. Approximately 80% of the Bellingham Auxiliary Police have taken and or completed First Aid Courses to date.

We wish to thank Mr. William Cummings and Mrs. Harriet Lamarre for instructing us in these courses.

Sixteen men are members of the Riot Squad Tactical Force.

GUN COMMITTEE REPORT

The following is a report of the activities of the Gun Committee for the year of 1970. Approximately 2000 rounds of 38 caliber and 500 rounds of shot gun shells were expended, at the Depot Street sand pit. All members who carry side arms have qualified at this site.

We wish to thank Mr. Donald Varney for giving us permission to use this site during the past year, so that all of our members will be aware of the safe handling of firearms. All rounds that have been expended, have been reloaded by the members of the Bellingham Auxiliary Police.

SGT. JOHN PEARSON

Chairman, Gun Committee

Training films on First Aid and other aspects of Police work were shown to the men at several of the meetings.

The year 1970 was expected to be less hectic than 1969, our 250th Anniversary Year. However, due to the increased awareness by the citizens of Bellingham, to the role of the Bellingham Auxiliary Police, this year was almost as busy as last year. In some ways it was more difficult, due to the pressures being put on all Police Depts. in this country. In order to be prepared for our ever expanding duties in 1971 we are instituting new and more professional training in connection with the regular force and the State Police.

Respectfully Submitted

REPORT OF THE BELLINGHAM HOUSING AUTHORITY

To the Honorable Board of Selectmen and Citizens of the Town of Bellingham.

The Bellingham Housing Authority is pleased to report that all of our 64 units are rented and no loss of rent occurred during the year.

The final payment was made to the contractor in December and we have accepted the entire project.

A special Town Meeting in November has given us permission to start the necessary paper work to build another project for the elderly. We are happy to report that such paper work has commenced and we are starting to look for a potential site for the next project.

We wish to thank the Board of Selectmen and Town Counsel for their assistance during the previous year.

Value of Real Estate 20,082,285.00 Taxes	<u>2,048,403.22</u>
	\$2,284,176.02

The Board of Assessors is happy to report that the revaluation and Town mapping has progressed satisfactorily and the contractors of this important project, Whipple—Magane— & Darcy of Andover, Mass., are grateful for the cooperation received from the townspeople. The revaluation of the town's properties will be reflected in the 1971 tax bills.

The inauguration of a full time employee in the Assessors' office has greatly helped the communication between this board and other municipal departments, especially the Tax Collector, Treasurer, Town Counsel, Town Accountant and Selectmen. This improved communication has proven to be of great financial value to the town.

The Board is grateful for the cooperation and understanding by the taxpayers of the task that HAS TO BE DONE by the Assessors who are also thankful for any help and cooperation received from the State Department of Corporation and the Town's other Department heads.

The Assessors are in a position to know how much of an added drain the real estate tax bill is on many household budgets and takes this opportunity to remind the taxpayers of the impending costly projects to be voted on at coming town meetings. APPROPRIATIONS AT TOWN MEETINGS MAKE YOUR TAX BILLS.

During 1970 the only change in personnel, was in the Children's Room, where Miss Frances Seagrave was appointed to take the place of Mrs. Norma LeBlanc who resigned to accept a position in the School Department.

Once again the Board of Trustees applied for a 1970 State Aid Grant and were fortunate in receiving \$1,693.50. The State Board of Library Commissioner's certified this with reservations due to personnel requirements as defined in the maximum Standards, 1962 edition.

The Physical condition of the Library is good. A new Roof was installed this year and constituted our only major repair. New shelves were installed in the South Branch and new Catalog drawers were installed in the North Branch. Tables and Chairs in the Center Library were refinished.

Again we call your attention to the fact that any specialized books may be requested from the Commonwealth of Massachusetts Library Extension Bureau upon putting that request to the Head Librarian, Mrs. Irene Darling.

We the Trustees are very grateful to Mrs. Hazel Whitley and Mrs. Caroline Carey who inaugurated the Story Hours in the Center and the Jaycee-Ettes who participated in the program in the North Library. They gave generously of their time, talent, and resources and thus made the Story Hours for the Children such a huge Success, we hope the project may be carried on again next year.

We especially want to thank the members of the Eagle Patrol of Boy Scout Troop 120 for the splendid job they did in cleaning and beautifying the grounds in the rear of the Library.

The Trustees are grateful to those who have donated books to the Library during the year or who have assisted in any other way to improve the facilities. We also are grateful to the Police Department, Highway Department, and the Fire Department. We thank you all.

REPORT OF THE BELLINGHAM PLANNING BOARD**For the year ending December 31, 1970**

To the Honorable Board of Selectmen and to the Citizens and Taxpayers of the Town:

The Planning Board held 34 regular meetings, 2 special and 14 Public Hearings during the year. No new subdivision plans were submitted to the Board.

Three zoning bylaw amendments were submitted by the Board on the 1969 annual warrant: Special Permits, Billboards and Home Occupations. All three articles met with the approval of the Townspeople.

The Board reorganized on March 12th and voted James E. Hart as Chairman and Gerard L. Daigle as Vice Chairman and Clerk. New member Sergio Rotatori was welcomed.

The advent of 1970 saw a surge of interest in Multi-Family Dwelling District Zoning. Seven Public Hearings were held for applicants seeking zoning changes to Multi-Family. Approval of the Board was given to five sites. Two sites off South Main Street were given voter approval and an additional site off Hartford Avenue was later approved by the Townspeople at the Special Town Meeting.

An extensive Circulation Plan study was undertaken and drawn up by the Board's Consultant Philip B. Herr and Associates. It is hoped that the report would serve as a guide in planning for things such as land use and capital outlays by indicating where improvements can be expected. Maps were included showing traffic volume with recent and committed improvements on major roads outlined. Copies of the study were sent to the various boards in Town.

During the year an Earth Removal By-law study was finalized and will be included in the Annual Town Warrant in March. A Residential Development Study was undertaken which will be of considerable help in updating our Rules and Regulations. Home Occupations were reconsidered and the Board will be considering the possibility of creating a new low density residence district.

The goals set by the Board for the coming year will be to update the rules and regulations of subdivisions, continue the study of the Center to develop a plan of improving it and to set up procedural rules and regulations to govern the Board.

We again take this time to thank all Town Officials and Citizens who have assisted the Planning Board in the performance of its duties.

REPORT OF THE ZONING BOARD OF APPEALS

To the Honorable Board of Selectmen and to the Citizens of Bellingham:

On March 5, 1970 the Zoning Board of Appeals re-organized for the year 1970 - 71. Officers elected by the Board were as follows:

Carl R. Rosenlund, Chairman; Robert Kingdon, Vice-Chairman; Richard Vose, Secretary. Mrs. Joan Wingle was renamed Clerk of the Zoning Board. All officers and clerk were voted by a unanimous vote of the eight man Board.

There were 21 applications filed before the Board in 1970. The Zoning Board granted 6 Variances, 6 Special Permits and the remainder of the applications denied or withdrawn.

A numbe of the public hearings had to be continued from one meeting to the next, because of the lack of a full Board. The Zoning Board of Appeals has had two vacancies on the Board for the past 6 months. With 5 members required to sit on the Board for a public hearing, we have been caught short handed on occasion. I would like to say at this time, that the present members of the Board are dedicated to their appointed positions and sincere in serving the Town of Bellingham as a member of this Board.

REPORT OF THE HEALTH AGENT

To the Honorable Board of Selectmen, Board of Health and the Citizens and Taxpayers of Bellingham:

SUBJECT: Annual Report of the Health Agent

From January 1, 1970 through December 31, 1970 the following permits were issued:

Sanitary System Construction Permits	45
Sanitary System Repair Permits	32
Sanitary System Installers Permit	18
Removal of Offal from theTown	5

Above permits issued in compliance with State Sanitary Code.

Clinics in 1970

- Vaccination Clinic: Pre-school children
- Antigen Clinic: (Diphtheria, Whooping Cough and Tetanus)
(3 clinics) Pre-school and Grades 1 & 11
- Polio clinics: Two free clinics were held using Trivalent vaccine supplied by the Mass. Dept. of Public Health and picked up by the Health Agent at Rutland State Hospital, Rutland, Mass.
- Rubella Clinic (German Measles): Clinic held for those in the 1st and 6th grades. Although this is one clinic it has to be held in each school thus it has to be set up many times but it is considered one clinic. Vaccine again supplied by the State and picked up by the Health Agent.

Rabies Clinic

After a several year lay off a rabies clinic was sponsored by the Bellingham Board of Health and on June 16, 153 dogs received the vaccine in the Center Fire Station and on June 23, 160 Dogs received the vaccine at the South Fire Station. Clinic was very ably handled by Dr. Fabbriotti and his competent staff. I would personally wish to thank Dr. Fabbriotti and the officers and men of both fire stations mentioned above for the excellent manner in which everyone helped to make a difficult job easy.

Swimming Area Water Tests

Swimming areas at Lake Hiawatha and Silver Lake were tested for bacteria content every two weeks from June through August. No high counts of bacteria were noted during the summer months of 1970.

RECOMMENDATIONS:

1. That a second rabies clinic be held in 1971. It is felt that to cover all dogs in town it takes two years. Recommend a clinic be held in the North, Center and South.
2. That Percolation Tests not be allowed during the dry months. A percolation test taken in July and August is very favorable to the builder. One taken in the wet months will give the town the favorable position.
3. That the Town Health Department set up regular schedules for checking all establishments selling food for consumption both on and off the premises.

I would like to take this opportunity to thank the volunteers who aided me especially, Camille Matkowski, Elise Fleurette and Andre R. Fleurette Sr. Also Dr. DePalo, Town Health Officer, Miss Lucy King, R.N.; School Nurses and Public Health Nurses for their cooperation in providing assistance to this office.

Respectfully submitted,

REPORT OF THE SUPERINTENDENT OF STREETS AND HIGHWAYS

To the Honorable Board of Selectmen, and to the Citizens of Bellingham

Another year has come to a close and we would like to review some of the activities of Your Highway Department during 1970, and give a brief outline of work planned in 1971.

During this past winter Your Highway Dept. used 1400 tons of salt and 7000 tons of sand for snow and ice control. This Department recorded seven Plowing storms and were called out 26 times for sanding and salting operations. We feel that the men of the Highway Department have done an excellent job in keeping our Streets open and safe for the citizens of the Town and for the motorists passing through.

Under our Chapter - 90 Maintenance program we have resurfaced another section of South Main St. (Rte. 126), from Chestnut Street to Scott Hill Blvd. in 1971 we hope to repave from Scott Hill Blvd. to Richard St. the distance covered of course will depend on the price that we receive in 1971 for Type I in Place.

Our Chapter - 81 Maintenance work this year was used mostly to eliminate most of the existing gravel roads that we had in Town. The following Streets were penetrated with MC 70:

Hixon Place	Indian Run Rd.
Granite Street	Chestnut Street
Farm Street	Mohawk Street
Tauton Street	Pelletier Drive

After penetration the following Streets were sealed with MC 800

Hixon Place	Indian Run Rd.	Irving Street
Granite Street	Chestnut Street	Elbow Street
Farm Street	Mohawk Street	Locust Street
Taunton Street	Pelletier Drive	Muron Avenue
Pine Grove Ave.		

In 1971 we hope to use the money we save on Grading & Graveling and use it to seal with liquid asphalt and sand some of the roads that have dried out and cracked.

Your Highway Department also worked on many routine tasks this past year such as Painting Crosswalks, Installing Traffic and Street Signs, Replacing posts and Guardrails, Repairing drainage systems that were blocked, and we also completely rebuilt the High St. Bridge which was slowly sinking into the Charles River.

The Highway received and put into operation one new plow in 1970. We also purchased from surplus sales one 4 wheel drive Tractor which was used for our plowing operations. We hope in 1971 to secure additional equipment for the Town at a great savings to the Taxpayer.

This Department is asking for two new Dump Trucks, One New Pickup and one (1) Ten Truck, most of this equipment is to replace older equipment on hand. This Department is also asking the Town to make a move this year to building a badly needed Town Garage, for the equipment we now own and will need in the future. The longer the building of this needed facility is put off, the more it will cost the Town, when it is built in the future.

Again I wish to express my appreciation for the cooperation and help that I have received this past year from the Employees of the Highway Department, The Police Department, The Fire Department, The Water Department, The Board of Selectmen, The Town Counsel and The State and County Engineers.

Respectfully submitted,
GERARD L. DAIGLE
Highway Superintendent

Ambulance — Rescue Division

Capt. Marcel Crepeau Lt. William Marcoux Clerk Mrs. Ann Mullins

Ex-Chief Peter Kornicki, Retired Firefighter Paul Barrette and former Firefighter Lewis Patrick passed away. Chief Kornicki was head of the Dept. from 1952 to 1969. Firefighter Barrette was an organizer of the first fire company in South Bellingham over 35 years ago. Firefighter Patrick was in the first group that formed the Center station and remained active until he moved out of town.

— Mobile Emergency Equipment in all Stations

as of January 1, 1971

Station No. 1

Ambulance: 1961 Ford, Seibert Body Model 1045. Awaiting delivery of a 1971 Oldsmobile Cotner-Bevington Ambulance.

Engine 4: 1950 International Forest Fire Truck. Money requested in 1971 Budget to convert the electrical system to a 12 volt.

Engine 6: 1960 Ford 750GPM Pumper. Money requested in 1971 Budget for replacement of booster tank. Because of rust and corrosion condition no more repairs could be made in the original tank.

Station No. 2

Rescue: 1966 International Carry-All combination Rescue-Ambulance. In 1970 radio installed on Fire frequency so that both police and fire dispatcher can always be in touch with this valuable piece of equipment.

Engine 5: 1954 International 4 Wheel drive Forest Fire Truck.

Engine 7: 1966 Ford 750GPM Pumper.

Station No. 3

Engine 1: 1939 Diamond T. — Forced this past year to give this truck a motor job and this truck is only capable of limited duty. This truck will be used primarily as a spare truck to be shifted temporarily into any station.

Engine 3: 1969 Ford 750GPM Pumper. Passed all tests and put into service the middle of November.

Condition of Stations and Equipment

The three stations are in good repair. With the employment of the permanent men daily cleaning and general housekeeping has kept the repairs small.

All stations have a small amount of equipment surplus in inventory with the Center Station being headquarters for supplies storage.

Radios

All town-owned equipment (6 fire trucks and the ambulance-rescue vehicle) have radios in good working order on the Mutual Aid Fire frequency. Also, the privately owned cars of the Chief and Deputy are on this same frequency. Both the ambulance and rescue vehicles are also on the police frequency. The Chief has a remote base station at his home for better control and supervision of his equipment. Considerable work was done on all radio equipment this past year and is now in tip-top shape. Each work morning a complete radio check is conducted with all the above equipment.

The Center Firefighters' Club bought 4 Civilian-Band Walkie Talkie Radios and the South Firefighters' Association bought 2, fully realizing the value of away-from-the-mobiles instant radio communication during a big woods fire, building fires, inspections, bomb scares, etc.

13 town-owned Plectron Home Alerting sets were bought this year and are in operation. Officials look to the day when all firefighters will be given a set.

Fire Alarm Division

Seven new Fire Alarm boxes were put into service during 1970, with 6 more installations planned in 1971. It is also hoped that some of our businesses will see fit to tie into the system. 15,000 feet of new wire was strung, bringing the total up to over 24 miles strung to date. A 10KW fully automatic stand-by Generator is near ready in service in the Center capable of taking over emergency stand-by duties for fire, police and highway power-failure emergencies. A great amount of work is forseen in this division, when North Main Street is widened and straightened and the relocation of many poles. The labor cost and material will be reimbursed by the state.

Ambulance Rescue Division

Monthly training classes were conducted by the division officers with very good attendance. The Clerk worked hard and diligently to collect a record amount from the users of the service. Some of the veterans of the division took Instructors classes voluntarily to be able to teach Advanced First Aid. Sometime after town meeting it is expected that it probably will be necessary to review Ambulance charges and make some minor increases. Ten men attended a special Cardiopulmonary Resuscitation course at Milford Hospital. Total number of corpsmen and somen is 33 and 15 others with Advanced First-Aid Certificates.

Permanent Men

The annual Town Meeting members voted to establish a 7 man day-time 5 day a week group of firemen. The Chief was in charge of hiring and laying the ground work. 15 applications were received from call firemen. Something too big for the permanent men to handle, or after their working hours would be handled in co-operation with the group of highly dedicated call men. Besides a physical examination there were many things considered for qualification. The group selected and their number of years experience follows: Captain Oscar Trudeau – 33 years; Marcel Crepeau – 16 years; Leonard Hadley – 10 years, Robert Provost – 10 years; Acting Lieutenant John Ridolfi – 9 years and Captain Alfred Richard 8 – years.

Since the men went to work on July 6th seven more applications are on file. Much has been accomplished in the first six months and a fine co-operation and attitude of these men has been a credit to the fire service. All special detail work was handled by these men as well as nearly 60% response with no further expense to the Town.

Building Fires

As the fire officials look over the past years 'battle of the flames' they feel that the men did an outstanding job of suppression and control. Over 40 building fires reported and only 10 of these were involved with insurance payments. It appears the insurance companies were very understanding in their settlements, because of 8 settlements recorded there was over \$85,000 paid.

Unfortunately two men perished in separate house fires.

Grass and Brush Fires

Even though this type of fire was responsible for the usual largest number of calls we were fortunate this year that during the usual dangerous spring and fall seasons the weather was unusually wet and most of the calls were handled either by the permanent men or with the call men's assist with a one hour payroll.

Operational Record of the Ambulance-Rescue Division

(Total includes 9 Mutual aid runs)

Total Calls for year = 471
Not included in total are over a hundred responses with fire companies for standby insurance at building fires, box alarms, accidents, etc.

The total Ambulance-Rescue response billing for the use for the year was \$4,576.25. Mrs. Mullins, clerk, collected \$3,079.85. Bellingham Welfare Dept. owes as of 1/1/71, \$317.50 which has not yet been collected. \$3,000.00 was appropriated at the Town meeting for Chauffeurs and Attendants. Using these figures the town collected 74% of it's billings. In many cases Mrs. Mullins dunned the customer on these billings and finally made personal phone calls to arrive at this exceptional percentage.

Total calls, 1021, points up the fact that this is a very busy department.

Personnel Training

Both Spring and Fall four 2-hour training classes were conducted in all stations by the officers. Eleven men went one night a week for 4 months to Walpole for 3 hours a night for specialized training. Forty men spent one night a week for 10 weeks in various classes held in town concerning fire fighting procedures, etc. Twenty-three men went to Walpole and four men to Uxbridge for a two day weekend seminar this past Spring sponsored by the State Board of Education. I feel that the men, in the future should be paid for their training time. In 1970 they gave 70 hours training time with no cost to the taxpayer.

Fire Prevention

The Chief and his officers conducted the required fire drills and programs in all public and parochial schools. During Fire Prevention Week many Cub Scouts and other small groups visited the stations.

Business establishments, restaurants, factories, etc. were inspected with a card file set up for each case. Wherever violations were observed, letters of recommended improvements were sent with officials calling back within 30 days to see that they had been corrected. Much work still remains to be done.

False Alarms

Officials are very concerned over the fact that 16 Box Alarms were pulled falsely this past year. Besides being very expensive (Payroll only \$1,011.25) to the taxpayer it is dangerous for man-power and equipment to be rushing to the location when they might conceivably be needed at a real fire. The penalty to those caught ringing an alarm is punishable by a fine of not more than \$200., or by imprisonment in a jail or House of Correction for not more than one year. (March 28, 1968, Chap. 269, Sec. 13)

Recommendations for 1971

1. One emergency telephone number for the whole town.
2. 24 hour a day – 7 day a week dispatcher manned by capable firemen.
3. Replace the sirens in the South and Center.
4. Pay firemen for attendance and participation at eight practice sessions a year.
5. Further extension of Fire Alarm Boxes and the purchases of more Plectron home alerting sets.
6. Town-owned gas pumps with a town-employed mechanic to take care of all town vehicles.

Acknowledgements

The co-operation of Deputy Chief Trottier and all the officers has been outstanding.

The general attitude of the first group of permanent firemen was commendable and we made great strides in seeing eye to eye, and accomplishing a great deal.

The call men were as usual, very dependable and civic minded.

The Honorable Board of Selectmen and all department heads were very co-operative.

Fire officials look to 1971 as a year of continuing improvement.

VINCENT R. THAYER

REPORT OF VETERANS AGENT

To the honorable Board of Selectmen and the Citizens and Taxpayers of Bellingham.

Since January 1, 1970 we have experienced quite a reverse in the economy of the State of the Country. We have passed through a period of depression coupled with inflation.

The number of unemployed is high throughout the country and the State of Massachusetts has the dubious distinction of being among the highest. A number of these unemployed are Veterans and are therefore entitled to help from the Veteran's Services if they qualify. For the past three months we have been receiving requests for aid from these unemployed veterans and we have been supplementing their incomes according to state regulations.

During the months of October and November, we were also hit with the General Motors strike. Veterans are allowed help during strikes and we paid an income to these men as required to do so by the state regulations.

Listed below are the months of the year with the number of cases handled during these months.

REPORT OF BELLINGHAM PERMANENT SCHOOL BUILDING COMMITTEE

To the honorable Board of Selectmen and Citizens of Bellingham:

Herein is the report of the Permanent School Building Committee.

During the year 1970 the committee has held 24 meetings in the Memorial Jr. Sr. High School, made visits to several schools inspecting buildings, met with the School Committee twice, Finance Committee and School Building Assistance Board.

Its progress and accomplishments have been the following:

1. To hire the firm of Schofield Bros. of Milford to do all the survey work of land on Blackstone Street adjacent to the present High School.
2. Engaged three (3) Appraisers to appraise land for a fair market value. Those engaged were:
Daniel Reardon of Worcester
Francis Larkin of Milford
Francis X. Brophy of Worcester
3. Interviewed five (5) Architectural firms and engaged the firm of Korslund, LeNormand & Quann Inc. of Norwood.
4. Interviewed four (4) Educational Consultants and engaged the firm of Crabtree, Dawson & Michaels of Waltham.
5. An article was placed in the special town warrant for monies to purchase 113 acres on Blackstone Street at a cost of \$79,129.
6. The committee is continuing its search for a site in the north end of town for Elementary School purposes.

The Permanent School Building Committee wishes to express their thanks and appreciation to all for their cooperation and assistance this past year.

ANNUAL REPORT OF THE FINANCE COMMITTEE

To the honorable Board of Selectmen:

Gentlemen:

The Finance Committee has worked diligently on the various Town budgets in preparation for the Annual Town Meeting, always trying to see that every dollar is well spent and always keeping in mind that of all towns of Bellingham's size, we rank near the bottom in ability to pay. We feel the major reason for this is the small size of our commercial and industrial tax base in proportion to the residential base which in turn requires larger expenditures for municipal services.

We hope the town will be able to restrict its residential growth while its commercial assets expand. This would seem to be our most realistic hope for tax relief.

The Finance Committee has recommended that all capital expenditures be financed on as short a term basis as possible. We will continue to recommend this policy in order to hold down our interest payments.

This Board has experienced difficulty in attracting candidates to fill vacancies, and has had trouble retaining experienced members. We think the reason for this disenchantment is not so much the lack of attendance at our public hearings, but rather the lack of support for our recommendations at the Town Meetings. It is really unfortunate that people with self-interest and a gift for oratory are able to overturn the carefully considered opinions of the Finance Board. This usually proves costly to the Townspeople who do not bother to attend Town Meetings.

REPORT OF THE TREE WARDEN

In the year 1970, seventy five (75) trees had to be cut down and removed. They are as follows; 40 Elm, 20 Oak, 4 White Ash, 9 Pine and 2 Birch.

Trimming was done on the following town streets; Locust, Wrentham, Maple, Pine, Hartford Ave., Depot, Lake Shore Drive, Lake, Cross, and Center Streets.

There are still an indefinite number of trees to be removed and also trimming to be done during the year to come.

I wish to thank the Board of Selectmen and all those concerned for their cooperation.

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

To the honorable Board of Selectmen:

Gentlemen:

The year 1970 was one of progress for the industrial and commercial development of the Town of Bellingham.

The Industrial Development Commission is pleased to report that with the addition of Frost Electronics and Medfield Wood-Working Company well over one quarter million square feet of industrial space is occupied. At present there is very little existing industrial floor space available for occupancy.

The Industrial Development Commission is working with a number of interested industrial land owners who plan to begin construction of Industrial Parks this year. The parks offer sites which range in size from 1 to 150 acres. Sites may be purchased or leased, as best meets the needs of prospective tenants. The park developers are prepared to construct buildings to suit all requirements of industrial occupants.

The opening of: a branch of the Needham National Bank - a Shawmut Association Bank, a new professional building and many new service oriented commercial enterprises are additional signs of our continued growth and increasing prosperity.

The annual town meeting approved the establishment of an Industrial Development Financing Authority for the town. Much time and effort have been expended by the Industrial Development Commission and the Board of Selectmen in screening applicants for this important authority. It is expected that the members of the Bellingham I.D.F.A. will be appointed in early 1971.

The Industrial Development Commission is continuing an aggressive advertising program featuring Bellingham's advantages as an ideal industrial-commercial location.

The cooperation and assistance of all facets of town government is essential for industrial and commercial development. The I.D.C. wishes to express its appreciation to the members of all town departments and in particular wishes to thank the Selectmen whose leadership creates a favorable climate for industrial growth.

ANNUAL REPORT OF THE CONSERVATION COMMISSION

To the Honorable Board of Selectmen:

The Conservation Commission was again active in the field. the members are continually touring the Town in order to prevent pollution and the misuse of land. Improper use of land today can cost the taxpayers dearly in the not too distant future.

During late summer, members of the Commission became aware of the fact that a fast flowing brook was going dry. Our investigation, which included following the brook's path for many miles through thick woods and brush, was stopped by piping going underground in a housing project. The investigation will be picked up again as soon as weather permits.

Contact was made with the Department of Natural Resources regarding the filling of "Wade's Pond". This Commission made several attempts to acquire Wade's Pond from the present owners. They had indicated that the Commission could have the "Pond" for Conservation uses for nothing (i. e., 100 years lease for \$1.) Upon learning about their plan to fill it, we wrote a letter to the Department of Natural Resources, taking a stand against filling for Conservation reasons and Health.

Chester Hood has been looking into acquiring land for Conservation use. Thus far his efforts and the supporting efforts of the rest of the Commission have resulted in our purchasing of a piece of land on High Street. This 50 acre tract of land purchased from Clyde B. and Philip H. Caswell borders the Charles River and assists in flood control according to the Corps of Engineers.

The purchase of the land is totally a Bellingham project. No State or Federal aid was sought. At a special Town Meeting, the voters agreed to transfer the necessary additional moneys to the Conservation Fund for the purchase. It is the intent of the Commission to manage this land to provide maximum benefit to the townspeople. Investigations on the acquisition of additional lands is in process.

Two members, Chester Hood and Hector Beauregard, attended the "Conservation School," a series of lectures on subjects designed to further educate conservationists.

The Commission is now at full strength for the first time in several years. With the addition of two new members, we now total (7). We are interested in increasing the participation of townspeople in conservation, therefore, next year we will be trying to enlist associate members to our Commission.

Joseph Mason made a presentation, including a film and talk on Conservation, to a group of Boy Scouts and to a church group. This is part of a program to bring Conservation to the youth of Bellingham. Other presentations will be planned for 1971.

As provided by the Town meeting vote under article 49 of the warrant for the annual town meeting of 1970, I have appointed the following persons to a five-member committee to study the general structure of government of the Town of Bellingham and to report their findings relative to restructuring and consolidating town offices at the next town meeting after September 1, 1970. Said committee shall have at least one member from each precinct in town, and the moderator was authorized and directed to appoint a temporary chairman to preside at the organizational meeting of said committee:

Joseph J. Beneski	5 Overlook Drive	3rd Precinct (temporary chairman)
Joseph G. Cortese, Sr.	Farm Street	2nd precinct
Rene M. Choquet	326 Lakeshore Drive	1st precinct
James A. McElroy	1000 So. Main Street	1st precinct
Andre N. Trudeau	5 Oak Terrace	3rd precinct

Later in the year Elwyn R. Parker of Farm Street was appointed to fill the vanancy caused by the resignation of Joseph J. Beneski.

Respectfully submitted,
R. BERNARD BIRON,
Moderator

REPORT OF THE BOARD OF SELECTMEN

1970 was the final year in which the Selectmen also served as the Board of Health. A new separate Board of Health will be elected at the annual election in March. Rubella and rabies clinics were held during the year to help eradicate these menaces. Please refer to the report of the Health Agent for further information regarding the activities of the Board of Health.

The Board sponsored an article at the annual town meeting which would have created the position of Executive Secretary. This failed of passage. An Executive Secretary would handle many of the administrative functions of the Board of Selectmen. In our budget for 1971 we have requested a sum to provide for a full time clerk. We feel this position is necessary to help handle the countless details which come to the attention of the Board. This, we believe, is a positive step towards improving the efficiency of our town government.

The Police Department was further expanded during 1970. Three men were appointed to the force. The Board negotiated with the Bellingham Police Association to establish a contract regarding wages, working hours, fringe benefits and similar conditions. We expect to sign the contract early in 1971. It is, of course, subject to Town Meeting approval.

The Board had engineering studies made with preliminary plans drawn for drainage work. These proposed projects would include the area off South Main Street south of the railroad to the Peters River and three areas for which funds were appropriated at the 1970 annual town meeting. The Board believes the proper way for the town to install drainage of this magnitude is to have the job engineered, let out for bids and completed by contract.

In July a permanent Fire Department was established. Fire Chief Vincent R. Thayer appointed six men to the Department. We believe the value of a full time Department will become more evident with each passing year. A new fire engine was delivered and put into service at Station 3. The Fire-Police Station is now equipped with a generator which will serve as an emergency power supply. The ambulance authorized at the annual meeting is on order and delivery is expected soon. The expansion of the fire alarm system was continued during the year.

The Commonwealth is continuing with its plans to relocate and reconstruct North Main Street. This project will include new bridges over the railroad and the Charles River. Depot Street is being engineered in preparation for eventual improvement. This is being done by the Norfolk County Commissioners at the request of this Board. Blackstone Street reconstruction should be completed during 1971.

New regulations for open air burning became effective during 1971 and the Board was directed to cease all burning at the Town Dump. The Board will utilize a land fill type of operation in the future to maintain the dump in a satisfactory manner. Dump stickers have been on sale to town residents and a fence was erected at the dump site. Much stricter control over dumping hours will be enforced.

The official federal census as of April 1 placed the population at 13,828. The town was reported to be the fastest growing community in the State during the last few years. This trend has slackened due to the general slow down in the economy and especially in the residential construction field.

The Board had the exterior trim repainted and new aluminum gutters installed on Town Hall. The North Community Building roof was re-shingled.

Under the direction of Town Counsel Lee G. Ambler, the town by-laws were codified and are now arranged in a manner which should lend itself to easier and more efficient reference. This codification also included research as to what general laws have been adopted by the town and when they were adopted. The Zoning By-Laws are also included in the work.

In cooperation with the School Department and the Police Department the Board co-sponsored several well-attended drug seminars. These meetings helped to focus attention on the alarming incidence of drug use.

The Board expresses sincere thanks to the Women's Club of Saint Brendan's Church for the volunteer repairs made at the North Community Building.

Those voters who are interested in serving on any of the appointed committees or boards are asked to contact a member of the Board to make their interest known.

The Board sincerely thanks the many officials and citizens who assisted in countless ways during the year.

Meetings of the Board are held weekly on Mondays at 8:00 P.M. All townspeople are cordially invited and encouraged to attend these meetings.

Respectfully submitted,
DAVID L. TUTTLE, JR.

I have presently invested \$100,000.00 from the High School Addition loan and \$200,000.00 from the Water Improvement Loan bond issues. This money is invested in United States Treasury Bills which become due March 1, 1971. The town also has \$200,000.00 of revenue funds invested in certificates of deposit. The proceeds from these investments will amount to \$6,227.81.

The Town of Bellingham received interest payments totaling \$23,847.50 from investments during the fiscal year 1970.

Again I wish to express my appreciation for the cooperation received from those individuals whose assistance was required during this past year.

Respectfully submitted,
N. ANDRE TRUDEAU

REPORT OF THE BOARD OF REGISTRARS

The Board of Registrars operated in 1970 with Anatole Debigare as Chairman and Lionel R. Trudeau, Town Cler, as Clerk of the Board.

Special Registration sessions were held in February for the 1970 Annual Town Election; similar sessions were held in August for the State Primary in September; and special sessions were held in October for the State Election held November 3, 1970. The total number of registered voters reached a new high just below the 6000 mark. Prospective voters are again reminded that they may register any time prior to the final registration before any Election, at the Town Clerk's Office at 37 Mann Street during regular office hours.

Respectfully submitted,

ANATOLE DEBIGARE,

Chairman

REPORT OF THE CAPITAL IMPROVEMENTS COMMITTEE

To the Honorable Board of Selectmen and the Citizens of Bellingham:

The Capital Improvements Committee was organized for the Year with Francis Prior as Chairman and N. Andre Trudeau as Clerk.

During this year our committee requested thorough evaluations of proposed capital expenditures by each department. These returns are necessary for this committee, to be able to properly evaluate the Town's needs and at the same time attempt to maintain a stable tax rate.

Our committee also met with Mr. Philip Herr of Herr Associates Planning Firm; this firm has agreed to review our upcoming capital expenditures program and present their recommendations for review.

The committee wishes to thank the various town departments for seriously considering their capital improvements program and would request those departments lacking such a report do so as soon as possible.

Respectfully submitted,

FRANCIS PRIOR,
Chairman

N. ANDRE TRUDEAU,
Clerk

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
SUPERINTENDENT OF SCHOOLS
OF THE
TOWN OF BELLINGHAM

For the Year Ending
December 31, 1970

REPORT OF THE SCHOOL COMMITTEE

To the Honorable Board of Selectmen and the Citizens of Bellingham:

The Bellingham School Committee submits the following report for your consideration.

Former members of the School Committee, Joseph F. Spas and Eugene E. Lemire, chose not to run in the annual election. The committee members would like to thank them for their devotion to the children of the community and for the efforts they put forth in helping us to move forward. The two new members who were duly elected were Roger G. Degre and John H. Kennedy.

It is to be noted that the School Committee has changed its meeting nights so that now it meets every other Monday at the Memorial High School. Copies of the agenda as well as approved minutes are available to any citizen upon request to the Clerk of the School Committee, Mrs. Mary Flynn. The general public is invited and encouraged to attend all meetings. Those citizens who wish to be heard or who have items to be placed on the agenda for committee consideration should contact the Clerk at least one week prior to the meeting night. It is especially encouraging to note that in the past year many citizens have attended our meetings and their suggestions have been given serious consideration by the committee.

This year the committee has changed its procedures. A sub-committee for Budget Development consisting of Mr. Robert M. Chase and Mr. John H. Kennedy as well as a sub-committee for Negotiations consisting of Mr. Gerard E. Tetreault and Mr. Roger G. Degre have been established. It is our hope that this procedure will make for a more efficient use of the committee's time.

Negotiations with all groups have been completed for the 1970 year and are almost completed for the 1971 year.

The committee has wrestled with the problems of the shortage of classroom space as well as the need for a more efficient management of the School Department. Relative to the space problem, the committee has opened two double units of relocatable classrooms and will sponsor an article to be presented to the Financial Town Meeting in March requesting three additional double unit classrooms. Your favorable reaction to this article is respectfully requested.

The committee has also authorized the investigation of the possibility of utilizing classrooms on a year-round basis. A citizens committee has been named and a report should be coming from this group in early January. The administration has also been requested to bring forth a similar report.

The addition to our High School was opened in September. This created a need for an additional Vice-Principal for which the committee provided by appointing Mr. Roger Canestrari to the position.

To provide for a more efficient management, the School Committee in the past year has established the positions of Business manager, Director of Elementary Education and Reading Supervisor. It is our hope that the latter two positions will help to bring about much needed curriculum coordination on the elementary level.

The Committee has had a busy year and it would like to take this opportunity to thank all those who have been of assistance.

Respectfully submitted,

GERARD E. TETREAULT,

AGE OF ADMISSION TO SCHOOL

Any child who becomes six years of age on or before January 1st of the year following the term when he wishes to enter school may be admitted into the first grade. Pupils under seven years of age who have not previously attended school shall not be permitted to enter later than thirty days after the opening of school in September.

"NO SCHOOL" SIGNAL

A four blast alarm by way of our fire alarm system will be sounded at 6:30 A.M. in the event that school sessions are to be cancelled, "No School" announcements will be made at approximately 6:00 A.M. and intermittently thereafter over Radio Station WWON, WNRI, WMRC, and WPRO.

In the event that schools do not close on any particularly bad day (rain, snow, cold, or other severe weather) parents are requested to use their own judgement in regard to sending their children to school.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To The Bellingham School Committee:

I am pleased to submit my twelfth annual report as Superintendent of Schools.

Perhaps the most significant events to have occurred in 1970 were the completion and occupancy of our High School addition, and the reorganization of administration. The former has caused improvements in the business of education at the Secondary level. Yet the reorganization of administrative functions is intended not only to improve the business of education but also improve educational business.

The occupancy of the High School addition now makes approximately 1,500 the capacity of our Junior-Senior High School. This has eliminated double sessions. Thus our students from grades 7 through 12 are back on a full day's schedule. At these levels we have introduced in our program additional academic and related courses in the arts, social studies, business and manual training. We now offer developmental reading, modern poetry history of drama, public speaking, popular music, music appreciation, music theory, Afro-American history, civics, world geography, notehand, office practice, business management, German I, Italian III, drafting III and woodworking III.

The availability of a health education instructor at the Secondary level made it possible to institute a health education program. The two units being taught this year are medical self-help and drug education. Testing of vision and hearing of all students at the Secondary level has been completed. The Secondary school program of studies was again reviewed by department heads and administration. New courses available for the 1971-72 academic year are the half-year courses of art 7 and sociology for grades 11 and 12.

In the area of guidance, it should be noted that all students have been counseled individually as well as the more than 50 post graduates who return to use for educational, vocational and career assistance. Guidance services have been extended to include specialized testing of the emotionally disturbed child, the mentally retarded and the perceptually handicapped.

Again this year we have acquired Federal funding in the areas of mathematics, science, social studies, English, business education, and driver education.

For the first time individual student schedules were programmed by computer and student report cards were data-processed via our own equipment and staff. The new position of second vice principal adds a new dimension to our administrative process. Mr. Roger Canestrari of our High School staff has been elevated to this assignment.

In June of 1970 we graduated 179 students - 64% of these or 115 have gone on to further formal education.

The program follows:

The change in administrative structure mentioned previously will hold even greater significance as years progress. The appointment of a business manager, director of Elementary education, and director of maintenance have freed the administrative head of these departments to be not only superintendent of schools but also superintendent of education. With the advent of these changes the Superintendent can exert the main thrust of his energies toward the improvement of instruction while coordinating the efforts of division heads.

Mr. Michael Reed is our Business Manager, Mr. Robert Hagearty or Director of Elementary Education and Mr. Frank Gardella our Director of Maintenance. The gentlemen are well qualified, do an exceedingly fine job, and daily become more valuable to our system.

The creation of the position of Supervisor of Reading with the appointment of Mrs. Marion Berio serves as a boon in this vital area of reading. Reading as you know is a tool subject, since it plays a significant role in other disciplines.

We hope to accomplish total curriculum revision at the Elementary level within the next two years. This is a Herculean task, but I am confident that our competent staff can achieve this goal in the allotted time. Presently, we have the following committees functioning: science and language arts. Our math committee has produced a guide which has been published and distributed to our teachers. Final assessment of this project is now taking place. Unfortunately, we could not acquire the services of a certified health instructor at the Elementary level. Thus a formalized program in grades 1 — 6 has not been accomplished. However, our Elementary staff does make some provision in bringing an awareness of personal hygiene and general good health habits to our pupils.

It is indeed gratifying to report that much is being done for the unusual child; the child with a problem or problems that interfere with the learning process. It is planned that more pupils in this category will be served, provided that staff and space are available. We now work with the mentally retarded, emotionally disturbed, perceptionally handicapped and the physically handicapped. In the instructional process the instructor does remedial or corrective work with some of these pupils. In other cases the student is taught methods of compensation so that his problem becomes less acute to him in his daily life.

All Elementary children have had a vision and hearing test. First and fourth grades have had physical examinations. All pupils in grades 1 through 6 have had an oral examination. Additionally, clinics have been held in our schools. In February and March, 1,334 students participated in the German measles clinic. In the early Spring, 351 pupils participated in an antigen clinic. During the course of the calendar year, 878 pupils were administered physical examinations by Dr. Thomas P. DePalo, our school physician.

During the summer months we conducted classes for enrichment as well as remedial purposes according to need and interest. Federal funds, approximately \$18,000 were used in order to conduct our Title I project. Other Federal funds were received under Title II. We continue to serve the adult population via our programs of Adult Basic Education, Evening Adult Education and Practical Arts.

I am pleased to state that hot lunches are now available to all students in our school system. This is done by the satellite program, wherein food is prepared in two of our cafeterias in sufficient quantity to have lunches trucked to so-called non-cafeteria schools.

I would like to restate at this point what appears to be our most pressing problem. Unless we acquire more school facilities our constant pursuit of excellence in instruction will be severely impeded. We need to expand our facilities. The goals we have set for ourselves cannot be achieved if we do not have the space to work in. We need to reduce class size, we need to do even more in the special areas of education, we need to provide all our pupils with a well-balanced educational diet by providing the type of space that will enhance the educational process for all our pupils. We now give instruction in sub-divided areas, which were originally intended for other purposes, as well as corridors and closets.

Further, since according to existing law kindergartens will be mandated in 1973, I would like to recommend once again a six weeks readiness program for all eligible 1st graders the summer prior to their entry in grade one. Lack of space now forbids the institution of the program during the academic year.

The following statistics will lend support to the need for additional space:

It is gratifying to note that the townspeople saw fit to appoint a Permanent Building Committee to constantly watch over our school building needs.

In conclusion, I wish to thank the various town officials, service clubs, and news media for their interest and cooperation of the past year. I further wish to thank our fine staff for assuming its responsibility so well in keeping education in motion in Bellingham. Finally, to you, the School Committee, for your guidance and cooperation, thank you.

REPORT OF THE MEMORIAL AND VETERAN'S DAY COMMITTEE

To the Honorable Board of Selectmen:

I hereby submit the 1970, Memorial and Veteran's Day Committee Report.

During the past year, this committee replaced the memorial wreaths, in the cemeterys and memorial squares, and placed over 900 American Flags on the graves of our departed veterans. This act of remembrance is done twice a year, by this committee. Also many hours were put in by this committee, in setting up and running the memorial day parade and memorial exercises, this past year.

This committee wishes to thank, the Selectmen, The Police and Fire Departments and all the many organizations who have cooperated with us this past year.

Respectfully submitted,
WALTER H. EMERY, Jr.
Chairman, Memorial and Veteran's
Day Committee

ANNUAL REPORT OF THE PARK COMMISSION

The Park Commission in Bellingham is now in its third year of operation as that branch of the town government designed and created by an article approved at town meeting in 1967 to plan, submit, and implement, upon voter approval, recreational programs for its residents.

In its first two years of existence, the Park Commission concentrated on enhancing those programs brought into reality by concerned citizens in particular sections of the town, subsidizing the swim program, Little League, and Pop Warner Football, and maintainence of the North, Macy and South Fields. In addition to helping financially programs initiated by volunteer groups interested in young people, the Park Commission assumed the responsibility of then supervising the hiring of personnel for the Water Safety Program at Silver Lake and the Arts and Crafts Program at the three fields named above.

In January, the Park Commission Intermediate (Grades 5 - 8) basketball program was begun and youngsters enjoyed the use of Memorial High gym for sixty hours over a twelve week period.

Shortly after Youth Hockey entered the picture and received Park Commission support.

At this writing the Park Commission looks back on 1970 as a banner year in developing a good recreation program for its residents with the addition of two new tennis courts behind Keough School, a Facility for public skating at the Memorial High tennis courts, the complete renovation of the baseball diamond at the South Field, and the addition of a new playground at Memorial High Field, as well as the installation of several pieces of playground equipment at Macy Field.

We thank all of you for your generous support of programs for our young people in Bellingham.

Respectfully submitted,

DONALD J. HORAN,

Chairman

LOUIS KAHLENBECK,

Clerk

ELIZABETH LOWRY,

Secretary

REPORT OF THE BLACKSTONE VALLEY REGIONAL VOCATIONAL TECHNICAL HIGH SCHOOL

Regular School Committee meetings are held at the Blackstone Valley Regional Vocational Technical High School on the third Thursday of each month at 8:00 p.m.

Enrollment

In September we started our fifth year of operation with 83 seniors, 89 juniors, 127 sophomores and 161 freshmen for a total of 460 pupils. The number of boys from each of the towns was as follows:

40 from Bellingham, 22 from Blackstone, 15 from Douglas, 53 from Grafton, 24 from Hopedale, 14 from Mendon, 67 from Milford, 62 from Millbury, 7 from Millville, 53 from Northbridge, 30 from Sutton, 25 from Upton and 48 from Uxbridge.

Midway through our fifth school year we feel that the Blackstone Valley Regional Vocational Technical High School is operating efficiently and serving the people of the area effectively in several divergent capacities, as shown in the number of students who enrolled in the regular day program and in the adult training programs:

1. 460 freshmen, sophomore, junior and senior boys in the day program.
2. 332 men and women in the Evening Trade Extension Program.
3. 15 young men in the Automotive Machinist Program.

Thus we have offered about 807 people the opportunity to further their education and to increase their vocational skills. In addition, our school is in operation from 8:00 A.M. to 9:30 P.M. every day except Friday when we close at 4:30 P.M.

At the close of 1970 we feel satisfied with our year's achievements; our staff and students have all cooperated to help maintain the standards we have set in previous years; and once again we would like to thank the communities of the region for their support and encouragement.

The success of our first graduating class was close to sensational. Many of the boys went on to further their education. The demand for student graduates far exceeds the supply. Bellingham should be proud to be a part of such a fine Vocational School.

Respectfully submitted,

GERALD R. BURKE

Member of Committee for the
Town of Bellingham

To see if the Town will vote to amend the Bellingham Zoning By-Laws as follows:

“3900 Earth Removal Regulations

3910 General

The removal from any premises of topsoil, borrow, rock, sod, loam, peat, humus, clay, sand or gravel shall be done only in accordance with Sections 3920 through 3970, except that the following shall be exempted from these provisions:

(a) The removal of less than 50 cubic yards of such material within twelve-month period.

(b) Removal incidental to construction on the premises, where such removal is explicitly allowed under a currently valid building permit or under agreements governing road construction in an approved subdivision.

(c) Removal on a parcel for which removal was authorized under a legal permit issued prior to adoption of these provisions until the expiration date of said permit, provided that all By-laws, permits and conditions applicable prior to the adoption of this Section shall be complied with. From that expiration date full compliance with all the requirements of Section 3900 must be met, subject to the right of the Zoning Board of Appeals to grant exceptions therefrom due to an undue hardship caused by the condition of the operation existing prior to the adoption of Section 3900 and the necessity for granting additional time to complete the surveys and requirements of Section 3921, said Exceptions to be issued subject to petitioners supplying reasonable evidence of

attempted compliance or undue hardship satisfactory to the said Board; in any event no Exception is to be granted whose expiration date is later than January 1, 1974.

3920 Permit from the Board of Appeals

Removal shall be allowed only under a Special Permit for an exception issued by the Board of Appeals following written application. The following shall be conditions for such issuance:

3921 The applications shall be accompanied by a plan showing all manmade features, property lines, names and addresses of all abutters if available from the Assessors, including those across any street or way topography at 5 foot contour interval of the site and all land within 100 feet of the area from which the above material is to be removed, together with the grades below which finish surface will not lie and the proposed cover vegetation and trees. If involving more than five acres and/or 10,000 cubic yards of removal, the plan shall be prepared by a Registered Land Surveyor or Engineer.

3922 A performance bond in the amount determined by the Board of Appeals shall be posted in the name of the Town assuring satisfactory performance in the fulfillment of the requirements of this By-law and such other conditions as the Board of Appeals may impose as conditions to the issuance of its permit.

3923 Before granting a permit, the Board of Appeals shall give due consideration to the location of the proposed earth removal, to the general character of the neighborhood surrounding such location, to the protection of water supply, and to the general safety of the public on the public ways in the vicinity.

3930 Removal

3931 Finish grade shall not lie below a level that would reasonably be considered a desirable grade for the later development of the area, or below the grades specified on the plan accompanying the permit application. The Board of Appeals may specify a base grade below which excavation shall in no event take place.

3932 Provision shall be made for safe drainage of water, and for prevention of wind or water erosion carrying material onto adjoining properties.

3933 A one hundred foot buffer strip shall be maintained at all boundaries, and not excavated below boundary grades except at a slope of not greater than 3 feet horizontal to 1 foot vertical if such will enhance overall grading.

3934 The visibility, sound, and airborne particulates from processing equipment shall be screened from adjacent premises through the design and location of such equipment, and through use of natural vegetation planting, overburden piles, and surge piles as screening.

3935 Dust shall be controlled through oiling or chemical treatment of roads.

3940 Restoration

Forthwith following the expiration or withdrawal of a permit, or upon voluntary cessation of operations, or upon completion of removal to the extent covered by the performance bond (Sec. 3922), that entire area shall be restored as follows:

3941 All land shall be so graded that no slope exceeds one (1) foot vertical rise in three (3) feet horizontal distance and shall be so graded as to safely provide for drainage without erosion.

3942 All boulders larger than one-half cubic yard shall be removed or buried, and all tree stumps removed.

3943 The entire area excepting exposed ledge rock shall be covered with not less than four (4) inches of topsoil, which shall be planted with cover vegetation adequate to prevent soil erosion.

3944 Bond shall not be released until sufficient time has lapsed to ascertain that the vegetation planted has successfully been established and that drainage is satisfactory.

3950 Additional Conditions

The Board of Appeals may set conditions in addition to the above, including but not limited to: duration of the permit, hours of the day during which removal may take place, hours during which vehicles may leave the premises, and trees to be planted.

3960 Renewal or Renovation of Permit

No permit shall be issued under the provisions of Section 3900 for a period of more than two years, but a permit may be renewed upon application without a public hearing. Prior to renewal, inspection of the premises shall be made by the Zoning Agent to determine that the provisions of this By-law are being complied with. The Board of Appeals, after hearing and proof of violation of this By-law shall withdraw the permit after which the operation shall be discontinued and the area restored in accordance with Section 3940.

Step 2. Amend Section 2400, Use Regulations Schedule, revising the "Earth Removal" row and its footnote to read as follows:

"Earth Removal ²	A	R	M	B	I
	SP	SP	SP	SP	SP

2. See Section 3900.

(By Planning Board)

ARTICLE 36. — REVENUE SHARING

To see if the Town will vote to support proposed revenue-sharing programs which will be before the 92nd United States Congress (1971) for the purpose of acquiring additional, needed revenues to assist in alleviating demands currently imposed on local property taxes, and to inform the entire Massachusetts congressional delegation of this positive action by Town Meeting Members; or act or do anything in relation thereto.

(By Board of Selectmen)

ARTICLE 37. — TAX LEVY REDUCTION

To see if the Town will vote to authorize and direct the Assessors to take a sum of money from available funds to reduce the tax levy for the current year; or act or do anything in relation thereto.

(By Board of Selectmen)

And you are directed to serve this Warrant, by posting up attested copies thereof in at least one public place in each precinct of said Town, fourteen days at least before the time of holding of said meeting.

Hereof fail not and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting as aforesaid.

Given under our hands this 1st day of February in the year of Our Lord one thousand nine hundred and seventy-one.
